

MULTI-LUBE

5-Action Lube with PTFE

Wynn's MULTI-LUBE is a versatile lubricating, cleaning and penetrating fluid with strong dielectric properties. It can be used on the car and around the home or garage.

PROPERTIES

- Frees seized or rusted parts and protects against rust, corrosion and freezing.
- Cleans and lubricates precision parts.
- Penetrates and lubricates hinges, handles, windows, pedals and springs.
- Dissolves grease, tar, gum and adhesives leaving a protective film.
- Repels water and moisture.
- Maintains insulating properties.
- Stops squeaking and creaking.

APPLICATIONS

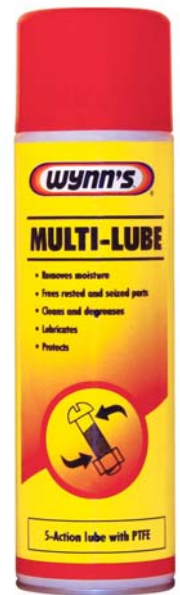

- A light oil for rusted joints and fittings
- Frees bolts, nuts, locks, hinges
- Removes moisture from spark plugs and in distributors
- Can be used to clean garden and workshop tools after use or to provide winter long protection
- Safe for use in bodyshops – does not contain silicone

DIRECTIONS

Shake can well and apply liberally.

To free parts: apply Wynn's Multi-Lube, allow to set a few minutes and loosen. In obstinate cases, repeat at 10 to 15 minute intervals.

In the case of difficult starting caused by humidity in the ignition; spray inside distributor, allow to disperse moisture and start.
