Wynn’s Brake and Clutch Cleaner is a powerful product for cleaning and degreasing of mechanical parts.

Properties

- Removes oil, brake fluid, grease and other dirt from metal parts.
- Eliminates dust from brake and clutch parts.
- Restores the friction of brake and clutch lining material.
- Avoids airborne asbestos dust.
- Leaves no residue.
- Chlorine free. Does not contain any chlorinated hydrocarbons.

Applications

- For use on brake parts: drum and disk brakes, lining material, brake pads, block brakes, springs, cylinders, etc.
- For use on clutch parts: clutch lining, pressure plate and all other clutch parts.
- Mechanical and other parts of the car, bicycle, machines, etc.

Directions

- First remove excessive dust/dirt etc. with a brush or cloth.
- In case of asbestos dust, remove it as prescribed by the local legislation concerning asbestos. Take the necessary safety precautions during the asbestos removal.
- Apply by means of brush, cloth or atomiser.
- Apply liberally on parts, allow to run off.
- Let the product evaporate or wipe off with a clean cloth.
- Repeat if conditions are extreme.

### Packaging

PN 11196 – 4x5 l – EN/FR/DE/NL/ES/IT

### Note

Avoid use on plastics and painted surfaces.
