DIESEL CLEAN-UP

Professional range

smoke and emission reducer
concentrated direct application
via fuel filter

Wynn’s Diesel Clean-Up is a concentrated product for cleaning diesel fuel systems that is used undiluted for filling up the fuel filter.

Properties

✓ Reduces black smoke, soot and exhaust emissions.
✓ Restores injector spray pattern.
✓ Decarbonises the combustion chamber.
✓ Restores compression and improves combustion.
✓ Cleans the fuel injection pump and fuel lines.
✓ Lubricates the fuel pump.

Applications

✓ For all diesel engines with or without turbocharger.

Directions

✓ Bring engine to operating temperature and switch off.
✓ Remove and empty the fuel filter or housing.
✓ Add contents of the 325 ml bottle to the fuel filter or housing (do not apply via the fuel tank). If necessary top up with fuel.
✓ Refit filter and start engine.
✓ Immediately drive the vehicle for at least 3 km (2 miles) at moderate speed.
✓ To maintain efficient operation, it is recommended that Wynn’s Diesel Clean-Up is used every 6 months.

Packaging

PN 25241 – 12x325 ml – EN/FR/NL/IT/DE/RU
Note

Do not add to fuel tank.
