Airco-Clean®

ultrasonic for cars

for use with Wynn’s Aircomatic® equipment

Wynn’s Airco-Clean® Ultrasonic for Cars stops bad odours in air conditioning systems.

Properties

✓ Removes greasy deposits, dust and other dirt from the airco evaporator.
✓ Eliminates bad odours and nicotine smell in air-conditioning systems and stops them for a long period of time.
✓ Neutralizes microbial contamination, fungi and bacteria in the air-conditioning system and washes them away.
✓ Prevents allergic reactions (sneezing, coughing, irritation to eyes, sore throats).
✓ Due to the very fine nebulization with the Wynn’s Aircomatic®, a fine dispersion and action on the evaporator is assured.
✓ Leaves a pleasant refreshing odour in the car after treatment.
✓ The used surfactants are biodegradable according to the test method OECD 301 A-F.
✓ The efficiency of the product against bacteria and fungi has been tested according to the standards: NEN-EN 13623; NEN-EN 1040; NEN-EN 1275; NEN-EN 1276; NEN-EN 1650; NEN-EN 13697 (clean surface and contaminated surface), for the following micro-organisms: Legionella pneumophila (1); Pseudomonas aeruginosa (2); Escherichia coli (3); Staphylococcus aureus (4); Enterococcus hirae (5); Candida albicans (6); Aspergillus niger (7).
✓ The efficiency of the preparation has been demonstrated after a contact time of maximum 15 minutes, except for NEN-EN 13697 (contaminated surface) where the bactericide effect on (3) and (4) has been demonstrated after 60 minutes contact time.

Applications

✓ Air conditioning systems in cars, trucks and buses.
✓ A repeated treatment each year is recommended.
Technical data

Appearance: clear liquid
Density at 15°C: 0,998 kg/dm³
pH value: 8,6

Directions

See manual of Aircomatic I, II or III.

Use biocides safely. Always read the label and product information before use.

Packaging

PN 30205 – 12x100 ml – EN/FR/IT/ES/DE/NL/RU/EL
