PRE-EMISSION TEST TREATMENT FOR DIESEL ENGINES

Fast acting Pre-MOT Treatment

Wynn’s Pre-Emission Test Treatment for Diesel Engines has been specially developed to reduce exhaust smoke and help your vehicle pass the strict new MOT Emission Test.

Properties

✓ Reduces exhaust emissions and soot.
✓ Reduces black smoke.
✓ Improves combustion, engine performance and fuel economy.
✓ Cleans injectors, restoring injector spray pattern.
✓ Cleans the entire fuel system including Diesel Oxidation Catalyst and Diesel Particulate Filter.

Applications

✓ For all diesel engines, including common rail and pump injector engines.
✓ Compatible with all diesel system components including catalytic converters, Diesel Particulate Filters and SCR systems.
✓ For diesel and bio diesel up to B30.

Directions

✓ Add one bottle of 325 ml to the diesel fuel tank containing a minimum of 30 litres of fuel.
✓ Drive at least 50 km on the motorway before taking the vehicle for an official emission test.
✓ Can be used as a curative treatment in the event of an emission failure.
✓ For best result use every third tank filling and use 150 km before MOT test.
✓ Results may vary due to service history, age and mileage.
✓ Bottle is suitable for capless fuel fillers.
