WYNN’S SCRATCH REMOVER is formulated with dedicated, unique harmless fillers to remove swirling & light scratches, scuffs, swirls and discolouration. Safe for all paint finishes.

**PROPERTIES**

- For all type of paint finishes.
- Works with swirling and light scratches.
- Do not use to remove apparent scratches that in practice are areas where the paint has been removed.
- Perfect for headlight restoration as an alternative use.
- Easy to use.

**INDICATIONS FOR USE**

- Clean the surface to treat beforehand. It should be free of sand, dust, particles...
- Shake gently before use.
- Apply a small amount of Scratch Remover to a soft clean cloth.
- Apply it then to the bodywork using light pressure in small circular motions until the product starts drying.
- Let dry until it turns white (not more than 5 to 7 minutes).
- Buff off with a second soft clean cloth or with other clean part of the same cloth.
- Repeat until the light scratch has been completely removed.
- Do not leave the dried product on the surface for an uncontrolled period.

The data concerning properties and applications of the indicated products are offered in good faith and are based on our research and practical experiences. Due to the versatility of the application possibilities, it is impossible to mention all details and we do not assume any obligations or responsibilities resulting from this. When a new addition appears due to the technical development, the preceding data are no longer valid.
TECHNICAL CHARACTERISTICS

• Appearance: Light paste
• Colour: Beige
• Density (g/ml): 0.97
• pH: 7.8 – 8.5
• Brookfield Viscosity (cP): 140M-220M
• VOC (%): 26.5

NOTE: These data represent mean values measured after different tests. Given the wide variety of operating conditions, these data do not constitute a basis for specification determination.

REFERENCE & PACKAGING

• PN42603
• Units per box: 12 units
• Capacity: 150ml.
